

Handover

Your job may end. Your judgment doesn't.
We seal it into a know-how pack. Companies buy it.

TARGET MARKET

Sells: Manila · laid-off support agents.
Buys: United States · companies whose support AI hands cases back.

PH BPO 1.9M workers · US support jobs –130K in a year · USD 1,660 outplacement per agent today

PROBLEM

When the job goes, 5 years of judgment goes with it. A résumé says "CSR, 5 yrs". Nothing connects that judgment to the AI that fails on exactly those cases.

Handover.

Live · two doors: individuals sell, companies buy

People sell the judgment they built at work. Companies buy it. Pick your side below.

INDIVIDUALS · PEOPLE WHO DO THE WORK

I register my know-how

The job may end. The judgment stays. Answer four questions and it becomes a note that companies buy, or send cases to.
